

Cold Storage and Controlled Environments with Insulated Metal Panels

KIP 010

Learning Credit, AIA 1 LU | HSW

Cold Storage and Controlled Environments with Insulated Metal Panels

This course will identify an expanded use for insulated metal panels in the food and beverage market sector.

Key concepts include understanding the thermal performance advantages of insulated panels, the concept of CLEANsafe design principals driven by the FSMA and USDA Regulations, and how IMPs perform the necessary envelope control functions.

You will also learn about aesthetics and design flexibility available from the use of insulated metal panels for all aspects of the building envelope.
