

## Metal Roof & Wall Systems

North America

From Rendering to Reality, Morin can provide the design files in any format and assist in all the details.

# The Design Elements you want, in the format you need only at **MorinBIM.com**

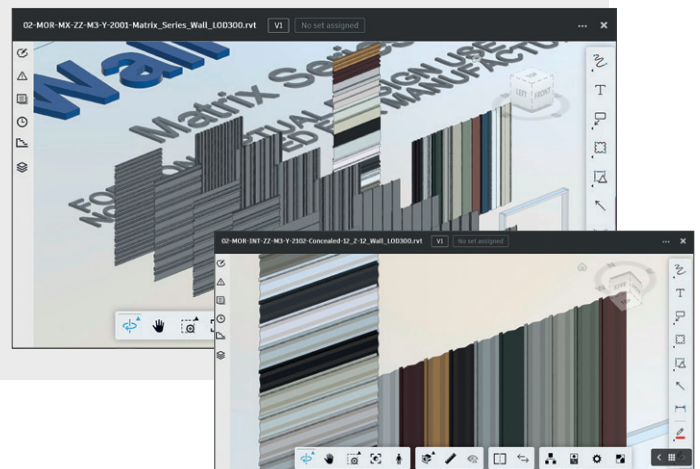

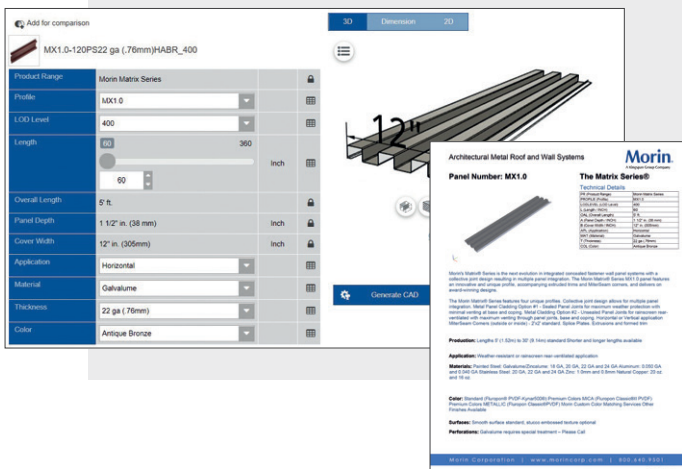

One page, two tools that will scale to your workflow.

**Flexible occasional needs.** Configure and download customized *individual* objects in any format.

**The Configurator:** 30 integrated wall profiles you can customize, assign attributes, and download in well over 100 file formats with detailed information.

**For Revit power users,** use our efficient **BIM Bundle**. Request a pre-assembled custom Revit (RVT) set of specific panels.

We build what you need from all the Kingspan exterior walls products, all regional companies. No guessing, *we make sure they are compatible* and deliver using **b360 Autodesk**.

**MorinBIM.com** – Facilitating the creative process.
